Submersible & Waterproof Cable Glands

We Set The Standards!

Our Products Makes The Difference!

Featured Products: EMI/RFI (Braided/Foil)

Standard (-BE)
Braided Shield Only

Overlapping clamping splines apply a concentric force, thereby preventing the form seal from being pulled out of the fitting. This ensures pull-out protection without damage to the cable.

The patented internal sealing edge results in a superior seal between the splined Nylon clamping insert and Nickel Plated Brass body.

Patented 360° grounding due to the internal O-Ring, which ensures perfect contact between braided shield of cable and fitting.

Our Metal-coated Nylon splines provides the highest electrical conductivity ratings in the industry.

Flexible contact points allow contact with variable braid and foil cable diameters.

Feed-Through (-FE)
Braided/Foil Shield

No Minimum Orders!

Large Domestic Stock!

Quality Is Number One!

We Provide Complete Solutions for your Application Needs!
